Healthcare solutions

Ultimate standards for quality products

Vitalo is a leading solutions provider, supplying high-end quality products for equipment and packaging for all kind of healthcare applications.

Using the extensive know-how of its engineering department, Vitalo provides total solutions to some of the most highly regarded brands in the Healthcare Industry.

To meet these demands, Vitalo offers in-house design and tooling capabilities combined with modern, high-performing thermoforming machines.

Healthcare customers demand the highest level of excellence for products that require **perfection in design, minute detail and easy assembly.**

In the **thin-gauge applications**, each piece of medical equipment from disposable goods, such as catheters, to life-saving products such as pacemakers, faces

unique packaging requirements. Every packaging device requires rigorous testing by packing engineers and meticulous forms of production. Vitalo's thermoforming processes ensure complete sterilization **to meet and surpass all international standards** for the medical packaging.

Vitalo boasts **Class 7 certified clean rooms**. Identical equipment at each location ensures an uninterrupted supply chain, a zero default rate and the same exacting standards at every one of Vitalo's plants. Vitalo's facilities are based at strategic global locations across Belgium, Slovakia, the Philippines, China, Japan, Thailand, India, the US and Mexico.

Within the **thick-gauge segment**, Vitalo specializes in the **development and production** of state-of-the-art thermoformed cover assemblies for both large and smaller healthcare equipment.

Precision of split lines, colour consistency, in-mass-coloured or painted material, high rigidity, light weight and extensive sub-assembly are only a few of the many advantages that Vitalo can offer to give our customers that little extra. Vitalo integrates a lot of accessories into the covers like touch-switches, sensors, latches, hinges, etc which allows quick and easy mounting.

The biggest healthcare manufacturers have recognised Vitalo as one of their **first-tier strategic suppliers to create highly functional, innovative and aesthetical products**, without compromising any of the technical requirements.

Vitalo excels in applying the best processes for the highest quality result. **Vitalo can rely on the following technologies:**

- » positive and negative thermoforming
- » high pressure forming, if required in combination with textured tools
- » twin-sheet forming
- » 5-axis CNC milling machines and robots
- » Inline and offline cutting capabilities
- » Extensive sub-assembly, allowing quick mounting

Vitalo offers a complete array of high-end solutions including:

- » Catheter and implant packaging
- » Housings for scanners
- » Surgical and handling trays
- » Covers for medical trolleys
- » Hospital kits
- » Cover assemblies for patient tables
- » Total packaging solutions: blisters, lids, sealing and validation

The Vitalo total solution for medical applications encapsulates:

- » Breakthrough of early involvement
- » Integration of in-house design, tooling and production know-how
- » Developing the most value-added cost-effective solution.
- » Risk reduction by global reliability
- » State-of-the-art equipment, technology and skills
- » Modern clean room facilities
- » Eye for innovation & creativity
- » Flexibility and customer-driven project approach
- » Agile, strategic partner
